

STS Guide to: *Tail Lift deliveries*

What to expect from a standard tail lift delivery via STS.

STS guide to: *Tail Lift deliveries*

Vehicle access: A customer's property must allow access for a 18 tonne vehicle.

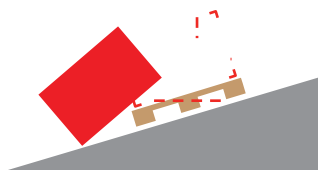

STRICT TAIL LIFT WEIGHTS APPLY

OBSTACLES

Access must be sufficiently wide and free of obstacles.

LEVEL SURFACE

Access must be reasonably level to unload safely.

LOOSE GROUND SURFACE

A pump truck will not operate on uneven or soft ground or loose gravel.

NARROW STREETS

Access must be sufficiently wide enough for vehicle to manoeuvre safely.

TURNING ACCESS

There must be enough room for vehicles to turn, for example in a cul-de-sac.

BRIDGES

Please try to make us aware of any bridges that may restrict access.
